

HH-60L ELECTRICAL AND AVIONICS SYSTEMS FAMILIARIZATION COURSE

This course addresses the difference between the standard UH-60 A/L, and the HH-60L helicopters. It is intended to introduce and provide an overview of the differences in the airframe, electronics, and medical systems.

COURSE LENGTH: 1 Week

COURSE SIZE: Optimum 8/Maximum 10

COURSE OUTLINE:

- A. UH 60 A/L vs. HH 60L differences
 - Airframe
 - ICS
 - Avionics Package
 - Battery System
 - Multi-Function Display system
 - Medical Interior
 - Oxygen Generating System
 - Environmental Control System
 - Rescue Hoist System

- B. Avionic
 - 1153 Data Bus
 - AMS
 - MFD
 - ICS
 - ARC 201D
 - ARC 222
 - ASN 128C
 - ARN 147
 - LF/ADF
 - ARN 153 TACAN
 - AAQ 22 FLIR
 - ARS 6 PLS
 - WX 1000 Storm Scope
