

Hawk Enterprises, LLC

Avionics/Electrical Instructor

Job Description

Title: Avionics/Electrical Instructor

Department(s): Training

Reports to: Training Manager

Job Summary:

The Avionics/Electrical Instructor will deliver on-site H-60 training courses at unit locations via a combination of platform instruction and performance oriented training. This position will develop, review, and revise new and existing Training Support Packages using the Instructional Systems Design Process. Other responsibilities include preparing storyboards and assisting in the development of Interactive Multimedia training products. Research technical data in support of our internet based H 60 User's Forum.

Skills:

- Strong background in Aircraft based troubleshooting and repair of Avionics and Electrical systems
- Experience on "Glass Cockpit" Aircraft required (H60M preferred, HH60L / MH60K accepted)
- Ability to interpret technical data, schematics, and wiring diagrams to aid in problem resolution and troubleshooting required
- Excellent communication skills (written and verbal) a must
- Knowledge and use of a PC and Microsoft Office products required
- Ability to work as a member of a fast paced, quality oriented team
- Ability to work independently with minimal supervision

Experience:

- Minimum 10 years on-aircraft (UH 60) Avionics / Electrical systems maintenance required
- Knowledge of current H60 electrical systems and avionics packages required (H60M preferred, HH60L / MH60K accepted)
- Formal Platform Instruction training / experience desired
- Strong background in on-aircraft electrical / avionics troubleshooting required
- Experience in Instructional Systems Design / Systems Approach to Training (SAT) helpful

Salary/Benefits: \$50-\$65K Annual based on experience / Excellent benefits package

Travel: 10-40% required

About this position:

Hawk Enterprises, LLC is a service disabled veteran-owned business that specializes in training and support of the Sikorsky H 60 aircraft. We work closely with all users of the Blackhawk community (military, civilian, and foreign) to provide comprehensive training and logistics support assistance in all facets of Blackhawk operation and maintenance.

Our Training Department offers system and task-specific training courses using Interactive Multimedia Instruction (IMI), Distance Learning (DL), and Exportable Training Support Packages in addition to our exported classroom training.
